The 2024 CESM Tutorial

Photos Folder will be sent

Time to say Good Bye and Thank You

In the land of CESM, where the code doth reign,
The days started early, yet we dared not complain.
From sunrise 'til dusk, with heroic flair,
We battled through lectures, and nobody cared.

With eyes wide open, like warriors so brave,
We listened for hours—no naps did we crave.
Through lessons unending, we showed not a yawn,
For heroes don't sleep 'til the knowledge is drawn.

The tutorial queue, oh, a beast of its own,
But with patience, we tamed it—no groan or moan.
JupyterHub fell to our will and command,
As we conquered each notebook with skill in hand.

In just two days, with fervor and zeal,
We devoured our weekly allocation—oh, what a steal!
The computers were smoking, our fingers ablaze,
In the annals of CESM, we'll live on in praise!

Thanks to our committee, presenters, lab helpers and admin
